

QUALITY POLICY

Direct Security is committed to:

- Providing Fire Detection and Alarm, and Security products and services, which fully meet the initial and continuing needs and expectations of all our customers.
- Fully complying with Industry Codes of Practice and Product Standards and Police and Brigade Policies on response to Fire & Security Systems (NPCC & NFCC).
- Involving our staff through teamwork, training, and professional development to continually improve the services we offer.
- Working together with our Suppliers and Sub-contractors to provide the best and most appropriate products and services.

The Business Management System is supported and endorsed by the Senior Management and every employee within the company and is a reflection of our desire to provide our clients with the highest standards possible in client care and provides a framework for establishing and reviewing business objectives. The Business Management System is closely monitored both internally and externally by NSI.

MANAGEMENT COMMITMENT

The Company is committed to implement, maintain and continually improve a documented Management System which complies with the requirements of BS EN ISO 9001: 2015+A1: 2024, SSQS101, and FSQS121. This operating system is designed to embrace all company functions, thus ensuring the efficiency of the business and the consistent delivery of a quality product for all customers. To this effect, this Quality Policy has been established and communicated at all levels within the organisation through the annual strategy renewal process.

SMART business strategies, goals and objectives for each department, subsidiary and division are challenged and set on an annual basis. Within this, goals and objectives for all staff are set for the forthcoming year.

LEGAL REQUIREMENTS

The company will exhibit the highest standards in maintaining a policy of honesty and correctness at all times towards both clients and employees. The Management Representative, in conjunction with the Senior Management team, has responsibility for ensuring that all legal requirements applicable to the business activities and relevant industry 'codes of practice' are identified, understood, and adhered to.

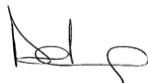

CLIENT FOCUS

All enquiries for products will be subject to formal controls. Procedures are established to ensure that the customers' needs, and requirements are determined and adequately met with the objective of achieving customer satisfaction at all times. Within this, other interested parties are considered as deemed necessary.

The scope of certification to ISO 9001:2015 is applied to the Direct Security's operations and covers:

The Design, Installation and Maintenance of Electronic Fire Detection and Alarm, and Security Systems including Access Control, Video Surveillance Systems, Intruder Alarms & Fire Detection and Alarm Systems in accordance with the requirements of BS EN ISO 9001: 2015+A1: 2024 and NSI SSQS 101 & FSQS 121, NSI NCP 104, NCP 109 and NCP 120, PD6662, BS5839 Part 1 & 6, BAFE SP203-1 and BS7858.
